OLD-TIME HALLOWEEN ILLUSTRATIONS CD-ROM & BOOK

Edited by Carol Belanger Grafton

DOVER PUBLICATIONS, INC., MINEOLA, NEW YORK

The CD-ROM in this book contains all of the images. Each image has been scanned at 300 dpi and saved in both 72-dpi Internet-ready and high-resolution JPEG format. There is no installation necessary. Just insert the CD into your computer and call the images into your favorite software (refer to the documentation with your software for further instructions).

All of the graphics files are in the Images folder on the CD. Every image has a unique file name in the following format: xxx.JPG. The first 3 digits of the file name correspond to the number printed under the image in the book. The last 3 letters of the file name, "JPG," refer to the file format. So, 001.JPG would be the first file in the JPEG folder.

Also included on the CD-ROM is Dover Design Manager, a simple graphics editing program for Windows that will allow you to view, print, crop, and rotate the images.
